

Reed Switch with Circuit Protection and 8mm Connector

June 6, 2007

TRD now offers additional lead options for our circuit protected reed switch. 8mm Quick Connect leads are now available. The R10P switch provides circuit protection using a varistor and choke arrangement, providing up to 138 volts of protection on the varistor, and up to 680 μ H on the choke. For information on all switches, refer to TRD Switch (PDF file) or the main TRD catalog.

R10PQ (8mm Quick Connect) \$51.20 LIST

(price is good for a minimum of 12 months)

Electrical Specifications	
R10PQ	Miniature Reed Switch, 8mm Connector, Circuit Protection (2 Wire Switch)
Contacts	SPST Form A (Normally Open)
Contact Ratings	10 Watts Max.
Input Voltage	120 Volts AC / 110 Volts DC Max.
Maximum Current	150 mA Max.
Actuating Time Average	1.0 millisecond
LED Indicator	High Luminescence Housing
Temperature Range	-20° C to 70° C (-4° F to 158° F)
Protection Rating	IP67
<u>Circuit Protection</u>	
Varistor	138 Volts
Choke	680 μ H
